Projects

Online Cab Booking System

Java

- This project was developed using Java Swing and event listeners. A group of three, including me and my teammates, developed this project with passion and eagerness to learn new things about Java.

AI-Powered Chatbot

Python

- Developed a chatbot using NumPy, NLTK, and TensorFlow that can train on JSON datasets, answer queries, and improve accuracy over time. Future improvements can enhance precision.

Portfolio Website

HTML, CSS, JavaScript

- Created a responsive personal portfolio website showcasing projects, skills, and contact information with a clean, modern design.

Internships

AWS Cloud Virtual Internship

May 2023 – Jul 2023

- Completed a virtual internship supported by AWS Academy through AICTE, gaining hands-on experience in cloud technologies and applications.

Networking Virtual Internship

Sep 2023 – Nov 2023

- Completed a virtual internship supported by JUNIPER Academy through AICTE, gaining practical experience in networking technologies and systems.

Certifications

Software Engineering Basics for Everyone(Provided by IBM on edX)

Oracle Certified Foundations Associate

Technical Skills

Programming Languages : C, Java, Python

Developments : HTML/CSS,JavaScript

Databases : MySQL

Tool s: Figma, Vs code, GitHub

Other Achievements (Certifications, Workshops Attended)

Database Management System - NPTEL

Programming Essentials in Python - Cisco
